“ Mary was one of those rare people that you felt you knew right away. We were good friends from the first day and stayed that way even when they moved to New Mexico. I am missing her so much but know for sure we'll see each other on the "other" side and she'll be with the children and Ken will be playing the guitar.

“ Mary I will always remember the times we spent together wether it was going to the movies, having lunch, the trip you and I made to see your friends in Prescott for your reunion last summer or the many special occassions in both of our lives. You have been reunited with grandma, grandpa and Uncle Ken and someday we will be together again. Love and Prayers Always, Terrie, Edward and Family

“ I thank God for Mary, a stepmother who is exactly the person I needed her to be in my life. God had a plan for us and he made you my Dad's wife and my friend.....weekly phone calls, correspondence thru mail, sound advice and a supportive listening ear. So many tender moments. Dad always referred to you as his "Earth Angel". Now there is another angel in heaven.....Love forever, Peggy

“ It was great seeing Mary last summer at the Abia Judd reunion the Summer of 2011. She was such an instrumental part of getting Abia Judd Elementary up and running 25 years ago. I also remember stopping and seeing them in Kanab, Utah at the little place where Ken would entertain with his guitar. Mary touched so many lives. She truly was one of those special people. My condolences to the family. Denise Roscigno

“ Mrs. Law was my first grade teacher at Dexter school in Prescott, Az. I remember them living further out Williamson Valley Road than us, back when it was way out of town. I learned much from Mrs Law and remember her fondly.

“ I was well-acquainted with both Ken and Mary when they lived in Chino Valley, AZ. Ken and I used to play guitar and piano together at retirement centers when they still lived here, years ago. I'd always hoped to see them again, but the distances involved were too great. We exchanged Christmas letters, photos from times past, and personal notes over the years after they moved. Mary was so supportive of Ken's music! I read her obituary notice in the Prescott, AZ, newspaper today and was sad to see she had passed. The end of an era, for sure. Thank you for putting it in our newspaper here. We'll see each other again in Heaven, I know!
